

# Your operational base at *Sea*

Supporting research, government,  
and marine projects across  
Australia

**ARGO**

Argo is a 27-metre expedition vessel purpose-built to support professional marine, research, and government operations across Australia. Combining functionality with comfort, Argo provides a reliable and fully equipped platform for projects that demand flexibility, safety, and efficiency at sea.

With comfortable accommodation for up to 18 personnel, onboard catering, workspaces, tenders, and dive support, Argo serves as a mobile base for science, environmental monitoring, medical or emergency response, and coastal fieldwork.

Whether operating as a research vessel, survey platform, or offshore support hub, Argo delivers the stability, space, and capability needed for successful missions in marine environments.

**ARGO**

# Everything you'll need for a success

Argo is equipped with the facilities and resources to ensure your project runs smoothly from start to finish.

Our spacious decks, work areas, and tenders make equipment deployment and field operations efficient and safe, while onboard comforts allow your team to stay focused and productive.

Whether you're conducting marine research, environmental surveys, or government fieldwork, Argo provides:

- Dedicated workspace and shaded deck areas for meetings, data collection, or equipment setup
- Two tenders with experienced coxswains for transfers, sampling, or inshore operations
- Dive and snorkel support for underwater assessments or monitoring
- Full onboard catering and accommodation for up to 18 personnel
- Wi-Fi, power outlets, and communications systems to stay connected and operational
- Evening debriefs and planning sessions in comfortable communal areas designed for collaboration

With reliable crew support, modern amenities, and a flexible operating setup, Argo offers the ideal platform for safe, efficient, and successful marine operations.

# Onboard Experience

**Work in Comfort.**

More than just a vessel, Argo is a fully equipped and self-sufficient work base at sea.

Argo offers accommodation for up to 18 personnel, with air-conditioned cabins, communal workspaces, and generous deck areas suitable for briefings, equipment setup, or team coordination.

The spacious saloon provides an ideal environment for meetings or data review, while outdoor decks support both operational activities and downtime between tasks.

Our professional crew manage every aspect of life onboard from freshly prepared meals, laundry, and logistics support to safe tender operations and dive assistance.

You bring the mission Argo provides the capability, comfort, and crew to make it happen.

# Accommodation options

We offer a range of options to suit your needs:

## Bunk Cabin (#5)

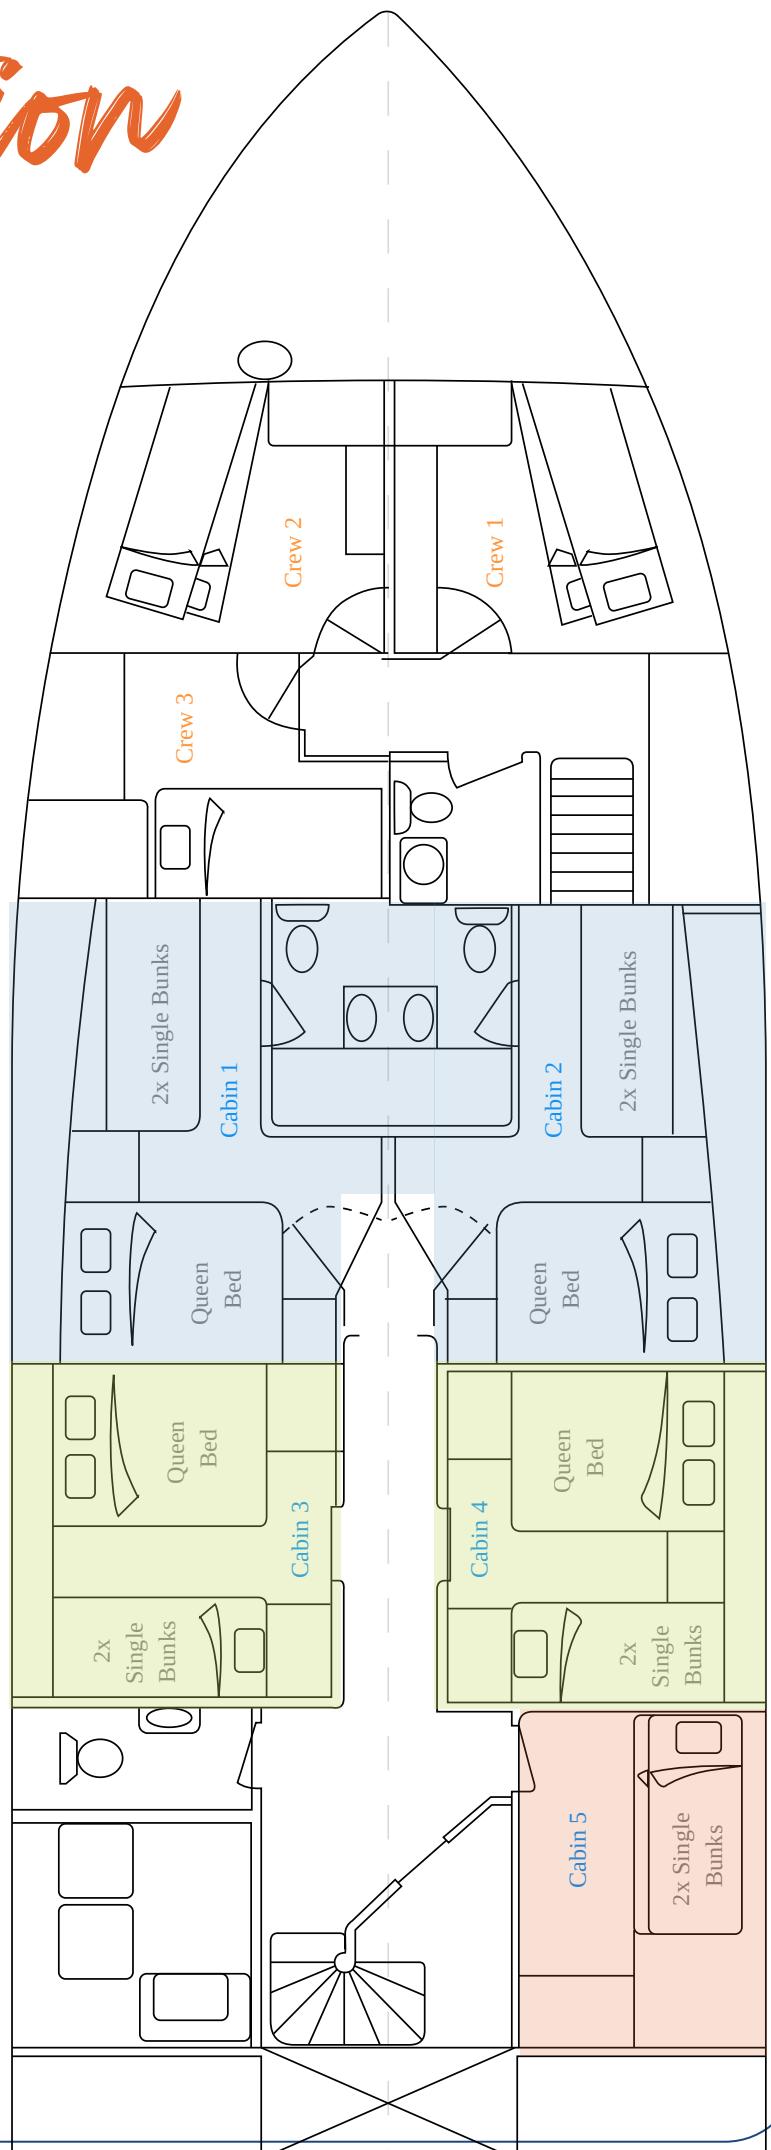

- Twin occupancy
- Two single bed bunks
- Storage area
- Shared bathroom

## Mid Cabins (#3 & #4)

- One queen bed and two single bed bunks
- Storage area
- Shared bathroom
- Twin, triple or quad occupancy options

## Ensuite Cabins (#1 & #2)

- One queen bed and two single bed bunks
- Ensuite bathroom
- Storage area
- Twin, triple or quad occupancy options

# Why Choose Argo?

Argo offers flexible charter options to support a wide range of marine and research activities.

## Day Operations

Ideal for coastal research, equipment deployment, or short-term survey work within the Great Barrier Reef region.

## Extended Charters

Perfect for multi-day missions requiring onboard accommodation, catering, and support for research, government, or marine projects.

## Long-Term Expeditions

Designed for extended fieldwork, environmental monitoring, or offshore operations where a stable and comfortable base is essential.

Every project is different, we'll work closely with you to develop a charter plan that meets your operational goals, timelines, and logistical requirements.

Argo combines functionality with comfort offering professional crew, quality catering, and modern facilities to ensure your team can focus on their work.

# Make your project a *success*

Whether you're conducting research, managing a government project, or supporting marine operations, a charter aboard Argo Expeditions provides the ideal platform to achieve your objectives.
